Responses and clarifications to related requests are an integral part of this Request for Proposals. The present responses and clarifications to related requests are considered to be indisputably known to all interested parties from the date of their publication on the website of the Growthfund.

- 1 We would like to formally note that, when completing the ESPD via the link provided in the RFP, upon finalising the process and exporting the PDF and XML files, the system does not appear to correctly reflect the information entered with respect to the Selection Criteria. In light of the above, we kindly request confirmation that we may alternatively use the European Commission's ESPD portal for the preparation and submission of the document. (ESPD)**

Regarding the ESPD form, please either download the ESPD Form.pdf file from Growthfund's website or alternatively request the same file in xml format, to be sent via email, by contacting Ms Anna Giannoulaki at info@growthfund.gr. Reference is also made to answer #1 in the Responses_Clarifications 04.06.2026 file.
